The negroes were reported to have escaped, but it is known that they are dead. In the St. Charles neighborhood the negroes largely outnumber the whites, and trouble has been brewing for a long time, and it is said the negroes for the past two years have been getting insolent and belligerent. It is now believed that the leaders of the unruly element have been killed, and that further trouble will be averted.

Tures Out for New York's Broadway Blaze.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, March 27.—(Exclusive Dispatch.] The loss by the fire yesterday, which burned out the Adams Express Company's building, No. 59 Broadway, and practically destroyed the adjacent building, occupied by the Morris European and American Express Company and other firms, will probably be between \$300,000 and \$300,000. Compared with the spectacular confusion which it caused, the actual results of the fire were small.

the fire started out with the idea of
giving this city a chance to rival Baltimore, it very quickly discovered that
it had a hopeless contract. Flerce as

MAKAROFF'S REPORTS.

Vice-Admiral Makaroff, commanding the Russian naval forces at Port Arthur, has sent the following telegram to the Emperor

"I beg most humbly to report that, at 2 o'clock this morning the enemy made a second attempt to block the entrance to the inner roadstead. For this purpose, they dispatched four large mercha steamers, convoyed by six torpedo boats, to the entrance. The enemy's ships were promptly discovered by the searchlights, and were bombarded by the batteries and by the guardships Bohr and Otvashni.

"Fearing the enemy's ships might break through, Krinizki commanding the guard torpedo boat Stilni attacked the enemy and destroyed the bow of the foremost Japanese steamer with a torpedo. This steamer turned to the right, and was followed by two others, with the result that the three were stranded to the right of the entrance. "A fourth steamer went to the right of the enemy's ships and likewise sank to the side of the fair way. The Stilni then battled with the enemy's six torpedo boats. Engineer Artificer Swyereff and six seamen were killed, and the commander and twelve seamen were wounded.

"At daybreak the enemy's battleship and cruiser squadron appeared, and I proceeded with the fleet under my charge to meet

"The second attempt to block the entrance to Port Arthur has failed, thanks to the energetic defense by the sea and land remains perfectly clear."

A further telegram to the Emperor from Vice-Admiral Maka-

"I respectfully report that the enemy having withdrawn, returned to the harbor with the fleet. The torpedo-boat destroyer Stilni, which stranded on a reef in consequence of damage caused to her engines by one of the enemy's shells, was floated during the course of the night and entered the harbor, thanks to the energy of her crew. Her commander, Lieut. Krinizki, who was slightly wounded in the arm, did not quit his post.

"On the fireships were infernal machines, the wires connected with which were cut. A floating mine was found, bearing an in fernal machine, but the latter was successfully removed.

"The inspections made show that the steamers utilized as fire ships were not old. They were each of about 2000 tons, and were armed with light-caliber guns," .

GEN. SMIRNEFF REPORTS.

The following dispatch has been received from Gen. Smirneff: "PORT ARTHUR, March 27.-Last night, about moonrise, the Japanese attempted to block the entrance to the harbor. Four fireships were sent toward the port, convoyed by a torpedo flotilla. Toward 2:15 a.m., the approach of the enemy's ships was perceived by the guardships and batteries, which simultaneously opened up on them heavily.

"The fireships were preceded by the torpedo boats and followed at a considerable distance by the larger ships, which opened on the forts, supporting the action of the fireships and the torpedo boats.

"Owing to the heaviness of our artillery fire and the boldness of our torpedo boats, the fireships did not reach the entrance to the harbor. Two of them grounded on a reef under Golden Hill; another sank beyond the first turn of the channel, struck by a torpedo from one of our boats, and the fourth sank, with its bows touching a Japanese steamer sunk in the previous attempt off

Vice-Admiral Togu ness this morning, Vice-Admiral Togo made another desperate attempt to bottle up the Russian fleet in Port Arbur, but he failed again, and when, after daylight, Vice-Admiral Makaroff steamed out to give battle, the Japanese commander refused the challenge and sailed away.

The Japanese practically repeated the tactics of February 24 by sending four ships, preceded by a torpedo-boat flotilla, with the exception that the warships this time were armed with Hotchkiss guns for the purpose of keeping off the Russian torpedo-boat deatroyers.

Reeping off the Russian torpedo-boat destroyers.

The enemy's attempt was discovered by means of the shore search-lights, and a heavy fire was opened from the batteries and from two günboats which were guarding the entrance to the harbor. The Russian torpedo-boat destroyer Slini was outside on scouting duty, and to the dash and nerve of her commander, Lieut. Kriniski, is chiefly due the complete defeat of the plans of the Japanese. He at once made straight for the oncoming ships, under a hall of fire from the Hotchkiss guns, and torpedoed the leading ship, which sheered off, followed by the others, three of them being pfled upon the shore under Golden Hill. and one under the lighthouse. The Slini then engaged the entire six torpedo boats of the enemy, coming out from a terrific fight with seven killed and her commander and twelve of her complement wounded, but on the Japanese side one boat's crew was saved. Rev. J. A. Fisher of Cleveland Barred from His Pulpit by Members of His Congregation. [BY THE ASSOCIATED PRESS-P.M.] CLEVELAND (O.) March 27.—The pastorate of Rev. J. A. Fisher of the Pranklin Avenue Congregational Church was terminated today in a mal manner. Rev. Fisher, sinc coming to the church last November, has been charged with too liberal views and he has been asked to resign. His contract, however, extends for three months longer. The congregation is willing to pay him for that period if he resters immediately.

he resigns immediately.

Rev. Fisher was to have preached twice today, morning and evening. The morning services terminated in disorderly scenes, when Mr. Fisher made reference to the manner in which many young people regard the Bible. He declared that it had been made a fetich. Thereupon Thomas Henderson, a deacon, arose in his seat and said that Mr. Fisher came to the church under false pretenses; that he had accepted the pretenses; that he had accepted the pastorate as a minister of the gospel. The congregation then took sides with and against the minister, and a number of persons moved toward the pulpit which Rev. Fisher had just left. He was not allowed to again enter it during the morning. Rev. Fisher came to Cleveland from the church of the late Dr. Scudder of Brooklyn, and is widely known.

CHICAGO, March 27.—[Exclusive

CHICAGO, March 27.—[Exclusive Dispatch] Any one owning a few barrelsful of able-bodied ladybugs can find a ready market for them by addressing C. S. Raddin, president of the Orrington Avenue Improvement, Association, Evanston. Ill. Ladybugs are what Evanston wants just, now more than anything else. She already is awaiting a consignment from California for which she has just contracted, but she is in a hurry, and it would be a favor to the North Shore suburb if a supply could be transhed instantly. It all comes about because a fungus could be furnished instantly.

It all comes about because a fungus has attacked the stately maples that line many of the streets. The improvement association found that this was filling the trees and means were taken to find a remedy. Raddin had a friend in California who had seen a similar discass course by an investor of lader. disease cured by an invasion bugs, so he prescribed the ins

PROTECTORATE "IN NAME." (BY DIRECT WIRE TO THE TIMES.)

(BY DIRECT WIRE TO THE TIMES!

WASHINGTON, March 27.—[Exclusive Dispatch.] An American protectorate over Santo Domingo is about to be established in effect, though not in name. It is to be directed by Comminder Dillingham of the cruiser Detroit, who won the approbation of the President by his decisive action at Puerta Plats, a few weeks ago, when he landed marines, armed with Gatling guns, to protect the property owned by Americans.

No senior officer will be sent to take the command away from Dillingham. This makes it necessary to send gun-boats, instead of cruisers, to do guard duty. Orders have been prepared send-ing the Detroit to Santo Domingo, and several gunboats, including the Ban-croft and Nashville, will also be sent there. They will relieve the training-ship squadron, ander Rear-Admiral Wise, which is now in West Indian waters.

TOM HAYS PUSH ALL AT SEA.

SCHEMES OF THE BOSS LIKELY TO GANG AGLEE.

Meeting of County Central Com-mittee of His Choceing Called for Next Wednesday—Election of a New County Chairman Will be in

RIVERSIDE, March 27-Apparent RIVERSIDE, mare a series of the "push" in the Republican party is all at sea, in these parts. Its head, "Tom" Hays, had some deeply-laid schemes, which may now come to naught. One of these has come to naught. One of these has come to tight since the incarceration of the leader. Hays is chairman of the Republican County Central Committee, which is comprised very largely of his followers, and it transpires that he was preparing to call a meeting of the Executive Committee, soon, and to then name delegates to the State convention. "Ike" Logan, Deputy County Recorder, a Hays man, is ascretary Recorder, a Hays man, is secretary of the committee, admitted the day before Hays's arrest that some such plan might be carried out. He still thinks that way, and by called a meeting of the Executive Clammittee for next Wednesday afternoon at William Collins's office. This body is known to be mostly of Hays's choosing and the following members are known to be out-and-out Hays followers: F. M. Dunbar, P. S. Castleman, Postmasto be out-and-out Hays followers: F.
M. Dunbar, P. S. Castleman, Postmaster G. D. Cunningham (who is said to owe his appointment to Hays's political pull,) E. S. Moulton, W. H. Pettibone, William Coiller (an aspirant for Superior judgeship,) J. A. Kelly, William Bradford, M. W. Findley and J. C. Rieger. Those who are known to be anti-Hays are Frank A. Miller, Senator A. A. Caldwell and W. E. Brock, while A. A. Adair (another S. perior judge cardidate.) Mayor C. I. McFarland, C. S. Holcomb, M. C. Paxton and William Vawter are classed as doubtful. Thus it will be seen that out of the total of twenty members, Hays has ten sure, and a prospect of more. Since Hays's exposure, there is a growing sentiment that, to insure Republican victory at the next election, it is necessary for him to either resign as chairman, or be deposed. Already the names of available and acceptable men are being brought forward. Hon, C. O. Barker of Hanning, is one of the most prominent of these. He is known to be a loyal Republican and has never been contaminated by Hays's influences. He has a large following and his appointment to the place would be very acceptable to the rank and file of the party.

An instructive instance of the use of electrical effects in a legitimate way for treating diseases is described in a recent issue of The Lantet, London, The practitioner made use of high-frequency alternating currents to cause electrical osmose by means of which drugs were introduced into the tissues of the diseased part. In twenty-two per cent, of the cases of cancer treated, the treatment was successful. He has come to the conclusion that a radio-active salt of strontium induced into the tissues by cataphoresis by high-frequency currents would prove a panacea for all forms of cancer.

Revival services at the Methodist Church last week attracted large audiences every night. Rev. Charles B. Alien of Danver, is an interesting speaker, and is a distinct type of the quiet, forceful evangelist who never antagonizes, and whose gentle influence is sowerful for good.

The man, who has attracted so much attention, with his "Cathedra Phone," or sounding chair, placed outside the engine-house, is S. A. Hempelton. It is said the man follows the different revival services throughout the city. He is a street preacher, and has a permit from Mayor Snyder to preach in the residence portion.

peaceful possession of the aquare which was formerly the home of so much debauchery.

Since the syliction of the Arlington tenants and the practical suppression of all of the other flagrant places, an exodus of scarlet women has started to the seashore. It is stated that a couple of Frenchmen are to immediately begin the erection of a retreat for these women at a point about midway between Sau Pedro and Long Beach, Many of the women have gone to San Pedro and Ocean Park to await this new venture.

Capt. Auble stated last night that the city was now freer of the crib swil than ever before, and that whenever and wherever yielous resorts might appear immediate steps would be taken to suppress them.

SPECIAL CORRESPONDENCE OF THE TOWN PRESCOTT (Ariz.) March 25.-According to a decision rendered in the local District Court by Judge B. E. Sloan, the United Verde Copper Company owes Yavapai count about \$15,000 more than the company has paid in as taxes for 1903. The United Verde properly, better known as Senator Clark's hundred-million-dollar mine, had been assessed at \$1,250.000 These

in as taxes for 1995. The United Verde property, better known as Senator Clark's hundred-million-dollar mine, had been assessed at \$1,250,000. These figures were reduced by the Board of Supervisors to \$860,000, the board figurals of the senator of Supervisors to \$860,000, the board figurals of the senator of Supervisors to \$860,000, the board of Supervisors of \$860,000, the board of grant the assessment "as excessive. But it happened that the board's collective mind was not made up on the subject till the time had passed wherein the members could sit as a Board of Equalization, Dist.-Atty. Clark, assisted by Atty.-Gen. Wella, entered suit against the Supervisors on behalf of the citizens of the county, and has secured judgment.

For more than a y-ar the case of the Val Verde Copper Company against. Grove and others has been fought bitterly in the District Court. It has involved a charge made against defendants of "salting" a carload sold to plaintiff company, which operated a smelter in Big Bug district. The dispute has finally been settled by a decision of court to the effect that the misrepresentation of values came through a mistake and could not be considered criminal. The defendants were ordered to return the \$2500 received through the sale of the ore and to take the ore back.

Eight motormen running the slag and builtion trains at the United Verde smelter, struck a few days ago for an eight-hour day. They accomplished the closing down of the immense plant, only a day or so, however, before a shutdown was to have been made for cleaning up the works. One of the motormen ran his machine off the slag dump lately and dumped a ton of molten slag upon himself, with fatal results. The next day the remaining motorneers put in their demand for shorter hours.

The entries are coming in rapidly to Secretary Mackensie; one each from Long Beach and Pasadena, two from the Monarch alleys, two from the Sunnyside, one from the Belmont and one from the Maple alleys of this city, making up the list. It will be a home-and-home affair and will last about seven weeks.

There is also some talk among the fams of starting a class A doubles tourney, and a decision will be reached this week as to the details of it. There

has never really been a tournament of this beind in this city and the noveltv of it should make it a success.

W. B. Needham did some remarkable bowling on the Monarch alieys last week iand his scores will be appreciated by all the fans when it is known that he is over 69 years of age. His style is to start the ball from the head pin with a slow curve. Five head pin with a slow curve. Five consecutive garnes last week were as follows: 201, 235, 201, 201 and 225, the average being 212.3-5.

Bowling seems to have taken a new lease of life in Pasadena and Manager A. A. Blattner reports a big in crease in the number of enthusiasts each week.

[BY DIRECT WIRE TO THE TIMES.]

SAN FRANCISCO, March 2f.—[Exclusive Dispatch.] Clover Blossom, a bitch that has very much improved, won the open stake at Ingleside Coursing Park today by beating Reckless Acrobat, the favorite, and the consistent Red Dog which captured last week's stake. The victory was a joyous one for the short-end players as the tempting price of 4 to 1 prevailed against the winner in the final course. Reckless Acrobat led and scored the turn, after which the little brindle bitch showed a world of speed and repeatedly drove past the well-played favorite. In her work she was a triffewild, but her savage drives scored repeated turns and points. A pretty kill, when the score was even, won her the course and stake.

One of the prettiest courses of the day was that between Reckless Acrobat and Full Moon. Acrobat led and took the turn when Full Moon drevely and for a moment looked a winder. The hopes of the short-end players were, however, blasted by a bad stumble of Full Moon, which allowed Reckless Acrobat to get in and handily score the flag.

SOME TELLTALE FIGURES.

It is with a degree of pride that The Times calls attention to the following figures compiled and published by the Brooklyn Eagle. They show to what extent Los Angeles was the center of great industrial development during the year 1903. The figures bear further testimony to the fact that The Times offers every day a greater bargain in advertising than any other paper in the whole United States.

NEWSPAPER ADVERTISING.

AND STILL IT GROWS.

The volume of advertising printed in The Times for January and February, 1904, compared with the corresponding months of 1903 show a gain of 5558 agate lines.

The Times printed for the week ending March 26th a total of 14,518 inches of advertising, which was within 75 inches of the number printed during the first week of March. Its nearest contemporary printed a total of 6745 inches. during the week ending Saturday, March 26th, as against 8251 inches for the first week of the present month, showing a total loss of 1506 agate inches, or over 71 columns. [NOTE-In this announcement, which appeared in the Sunday Times, the words "agate lines," in the preceding paragraph, should have been "loches."]

The conclusion is obvious. The boycotting gang and its organs are beaten.

brain is a disease in itself. It is a very prevalent disease, too. With a few foolish rules to observe, a whole lot of hygieric quirks to adjust to and a schedule of superstitious sanitary notions diligently followed by day and dreamed of by night comes a malady which begins as a mental derangement and ends in a complete physical fizzle. No room left for spontaneous life, no place for free, joyous liberty. Not a minute's space for rollicking disregard. Everything fixed, every minute disposed of, introspections without number. BAN BERNARDINO, March 27.—A nivenile prize fight between two roungsters of this city occurred last regaing in the rear of P. D. Gazevening in the rear of P. D. Gazsolo's residence near the corner of Seveuth and C streets, which resulted
in one of the boys sustaining a fracture of two ribs and the other having
all the teeth knocked from his mouth.
For six rounds the youths, George
Cooper and Frank Lane, fought savagely, being egged on by numerous
young admirers. Tops, pennies and
blcycles were staked on the winner.
Cooper, who had his teeth knocked
out, was a gory sight before the end
of the fifth round, but stood punishment bravely, and finally landed a
knockout blow, which has put his
youthful antagonist in the hands of

Railroads Did Not Keep Faith With Improvement Association in Mat-ter of Planting Palms—Warning to Treut Fishers—Home Telephone Gets Its Wires Into Oxnard.

SPECIAL CORRESPONDENCE OF THE TIMES. I VENTURA. March 27.—The ladies of the Santa Paula Improvement Club are at outs with the Southern Pacific Railroad Company and they think with very good reason. A year ago the ladies of the club entered into a contract with the railroad people whereby it was agreed that the company should prepare, fence, seed and plant with palm trees a tract of land opposite the north front of the depot, the ladies to care for and keep the contemplated park in condition when it was finished. Then the company made a great flutter toward doing "things." It graded the plot in question and even had iron fence posts shipped to the town. The ladies saw great possibilities in the shape of a handsome depot park, and were in ecstasie. But days passed and ran into weeks, and then into months. The ladies importuned the officials of the "octopus" to do something more. They were ready with hoe and rake to keep the park beautiful. But no word came from Mr. Harriman's hired help. The ladies have even gone so far as to raise a fund to help in the work of keeping up the park. But the railroad has made no further move toward the park improgrement, nor it is likely to. At length the ladies grew weary of the seemingly studied affront, and this wek forwarded to the railroad authorities their withdrawal from the VENTURA, March 27.-The ladies or the seemingly studed auront, and this wek forwarded to the railroad au-thorities their withdrawal from the agreement made. Their final letter to the railroad prople has not been made public, but it is said to be such an one as would make even a Southern Pacific official's ears tingle.

WARNING 10 ANGLERS.

A number of people in the county with sporting and outing proclivities, particularly the eastern tourists at the fashionable Nordhoff resorts, are preparing for an onslaught on the trout streams of the county April 1. They should have 1. Care or they will get fooled in an unpleasant way. The trout season does not open in this county until May 1. It used to open April 1, but last year in order to head off the Los Angeles fishermen, who were in the habit of coming_into this county and "hogging" the streams while waiting for their own season to open, the Ventura Supervisors extended the close season a month. It is likely this action of the Supervisors has been overlooked by some Ventura sportsmen, while the easterners are not particular anyway, heace the talk about taking trout here on April 1. The best streams are on the government reservation, and the rangers will perhaps take a hand in keeping out poachers. Those streams not on the reservation are so near the settled communities that it will be very risky to attempt to take trout from them. Those best posted say that there will be an abundance of trout in the streams this season.

LORDSBURG.

LORDSHURG, March 27.—E. T. Kelser left here today to join a party in Los Angeles, consisting of J. S. Kuns. Dr. D. L. Miller and J. W. Cline, all Dr. D. L. Miller and J. W. Cline, all men of prominence in the German Baptiss Brethren Church (commonly called Dunkers or Dunkards,) for a tour of two weeks in the San Joaquin and Sacramento Valleys. The object of their visit is to find a location for a colony of Dunkards who desire to settle in California. About sixteen years ago a colony of Dunkards settled here and started this town. At first their extreme exclusiveness and conservatism were not conductive to progress, but of later years they have mixed more with other people and there has been an influx of more progressive members of the church and men qf public spirit who are a help to the community.

COLLEGE ARBOR DAY.

COLLEGE ARBOR DAY.

Yesterday was observed as Arbor Day by the students and faculty of Lordsburg College. Through the efforts of Prof. Hanawalt 120 lots adjoining the college grounds were recently purchased for a campus, and in consideration of the low price at which they were obtained the vendor stipulates that the lots are to be used exclusively for a campus, and are never to be sold or built upon. The students appreciating this addition to their grounds, procured a number of camphor and acacia trees and yesterday celebrated the event by planting them. An effort will be made to vacate the lots and effers and put the tract into acreage again.

SHORT BITS.

There was a spirited debate at the meeting of the Occidental Society of Lordsburg College held last night, the question under discussion being, "Resolved, that navigation has done more for the country than railroads." Arthur Buck and Anna Nelson argued the affirmative, while Charles Hanawait and J. L. Miller led the negative side to victory.

Citizens Vising With Municipality in Improving the Town—Twin Cities Have Annoying Complica-tions—Too Many Postoffices—Sea-

stations which were confined to the drawing-room and dining-room, were effectively arranged. Quantities of the decively arranged. Quantities of the displayer o SANTA MONICA, March 27.—The spirit of improvement is abroad in Santa Monica, and private citizens are

to be constructed and the street will be greatly enhanced by the work to be done between the two bridges.

ANNOYING COMPLICATIONS.

In order to overcome at least in part the annoying complications which are all the time arising from the peculiar situation of the two municipalities. Here, it has been suggested to the City Trustees that they divide the city into two wards, numbered one and two. This city has two separate postoffices, each bearing a different name, and are very confusing, since the new town to the south has still further complicated matters by taking the name of one of Santa Monica's postoffices. The argument is advanced to the Trustees that by designating as ward No. 2 all that part of the old ocean Park which is in Santa Monica, the situation would be materially improved.

Another unfortunate feature in connection with it all is found in the fact that the confusion is depriving Santa Monica and Ocean Park proper of a free United States mail delivery service. Under the postal laws any postoffice whose gross receipts for the year amount to 518,600, is entitled to free delivery. Neither Santa Monica nor Ocean Park touches the 310,600 mark, but taken together they exceed it by several thousand deliars. But as they are two postoffices in one municipality—the only case of the kind in the United States—there is no precedent, and whatever action the postal department may take in the case will be original. If the Ocean Park postoffice were only a sub-station then free Jellivery could not be longer denied, but as it is neither a sub-station nor a branch of the Santa Monica office, the situation only becomes the more confused every time the department attempts to straighten out the tangle.

PEAL ESTATE ACTIVITY.

Beginning with the sale of the Hoy

Beginning with the sale of the Hoy Block on Third street, by J. W. Sharp to W. H. Chambers for \$8500, the past fortnight has witnessed an unusual activity in local real estate circles. A new tract of forty-eight lots on Oregon avenue, east of the High School has been opened, the atreets are being paved and, graded, and plans are under way for many new cottage homes there. The carrying of the concrete sidework out Oregon avenue eastward for a distance of a mile will prove a marked convenience and improvement CLAREMONT. for that growing section of the city.

FLOTSAM AND JETSAM.

J. C. Porter of Long Beach is the new Southern Pacific agent here, succeeding A. D. Medhurst.

The City Trustees at their meeting tomorrow night will be called upon to name a new driver for the chemical engine. Al Myers, the present driver, had his resignation accepted, to take effect April I. C. A. Thomas was chosen to succeed him, and now Thomas is nurshing a broken rib, as a result of the gas explosion at the tile factory. The repairs were completed at the gas works last night, and Santa Monica and Ocean Park enjoyed a warm breakfast tody, after two days of fasting and crackers.

The Home Ice Company of Los Angeles is making a canvass of the twincities, as a preliminary to providing competition on the beach.

Following the example set by the Los Angeles Milk Board of Trade, the milkmen of Santa Monica and Ocean Park expect on April 1 to clip 1 cent off the price of milk. The price will then be 3 cents per quart for milk in sealed bottles, and 8 cents in open measures.

OCEAN PARK. March 27.—B. L. Harding of Los Angeles makes the announcement that he will without delay erect a commodious three-story hotel at Ocean Park. It is to be located on the nerth side of Pier avenue, adjoining A. M. Montgomery's store building, on the weat. The building will have a frontage of fifty feet and will be ninety feet deep. The front is to be of pressed brick. There will be twenty-six rooms on the upper floors and each suite will be provided will be twenty-six rooms on the upper floors and each suite will be provided with a bathroom. On the ground floor will be buffet and rectament. That will also be a basement and the building will have thirty-three rooms in all. Its cost will be \$30,000. Mr. Harding says work will be commenced on it Monday. That is, excavation will begin then and material will be put on the ground so that work can commence in earnest by Tuesday. It will be completed by July 1, and will be called the New Holborow. Mr. and Mrs. John G. Holborow have a lease on the new building for three years. OTHER IMPROVEMENTS.

DEALS IN DIRT.

The recent sale of 100 feet of inside property on Ocean Front at a figure alightly under. \$300 per front foot is the most significant deal on the beach this season. Of this property sixty feet was purchased by R. D. List of Los Angeles. The sale of 150 feet on the south side of Marine street to Mrs. J. E. Waterman is reported, the consideration being stated as \$10,500. In outside property a large number of small sales are reported as having peen consummated at prices in advance of those at which beach property has recently been moving.

JUNIOR FARCE A SUCCESS. CLAREMONT. March 27.—Brilliant and spectacular was the farce. "A Scrap of Paper" given last night by the junior class. An orchestra from Pomona entertained the audience between the acts. The scene was in a French country house. The leading parts were taken by Walla L. Robb, captain of the varsity football eleven, and Miss Mary Smith, president of the Junior class. The other main actors were Eiste Cufver, Florence White, Edith Keiso, Jessamine Gillette, Ruth Richmond, Frank Seaver, Harry Willett, Frank Taylor and Albert Barrows. After the performance Arthur McCormick, manager of the affair, dined the particlipants at his home in celebration of the sp.cessful outcome of the farce. The proceeds of the performance will be used by the junior class in the publication of their annual, the "Metale," which appears at the end of the college year.

GUN PLAY AND BATTERY. LONG BEACH. March 27.—G. W. Beardsley, a property holder on Locust avenue, created a lively diversion in the neighborhood of his home this evening with a gun. Ing grain, and Beardsley's displeasure. This afternoon he armed himself and stood guard to prevent any trespassing on his premises.

The first persons to come along were W. J. Outland and wife, who started to walk across the barley field. Beardsley halted them and used some pretty vigorous language. Outland turned back rather than face the wrath of the irate barley reiser, but Beardsley would not let him escape so easily. He struck Outland a blow on the head and knocked him down, and then proceeded to give the prostrate man a good thrashing.

Mrs. Outland's cries attracted the neighbors, who came to the rescue and got Outland home. Beardsley started downtown, and on the way met City Marshal Williams, who had been sent for to arrest him. Beardsley pulled

A TOUGH PAIR

A TOUGH PAIR.

John Ross and Noah Brown, two hard-looking customers, came down from Los Angeles this morning and spent the day in carousal. About 5 o'clock this evening Ross fell over the bluff near the foot of American avenue, where there is a thirty-foot cut, that forms the outfall for a storm drain. He was considerably bruised, but a "drunk man's luck" saved him from serious injury. He was taken to the City Hall, where he was cared for. About 10:30 o'clock Brown was caught at the payillon trying to dispose of a watch and a fine jack-knife. He was arrested on suspicion of having stolen the property. When taken to the City Hall Ross identified the knife as belonging to him, and he charged that Brown "rolled" him while he was drunk, taking from him his money, as well as the watch and knife. Ross said he had \$40 in ne morning, but spent most of it during the day. Brown got the rest, he said, Both men are held while their records are being looked up.

Much Anxiety at Hueneme for Safety of Two Young Fishermen.

OXNARD, March 27 .- Considrable anxiety is felt in Hueneme regarding the safety of two fishermen, Jack King and a young man named Peters, who left that port for Anacapa Is-land last Monday in a sixteenfoot open boat. No word has been received of them since, and the heavy weather that has intervened since they left makes it appear more than probable that they have met with disaster. They took but one or two days' provisions along with next day with a load of fish. There is one man living on the island, and as he usually has hand there is no danger of their starving if they are safe on the island. Capt. Merry made a ago in the auxiliary yacht Daisy, and had to ride out a gale two nights and one day on a lee shore, expecting every minute to drag his anchor and go on the rocks. The weather in the channel for the past week or two has not been conducive to much pleasure in a larger boat. Althouse Bros. sell fine pottages

BAD TEETH

Rich Neck-Wear For Easter

We have prepared the finest showing of elegant neckwear and belts for Easter that has ever been seen on the Pacific Coast. This' may seem like a strong statement, but a few minutes' inspection will convince you of the truthfulness of it. From New York's best makers we have culled the choicest lines, and they are all now here for your choosing. Beautiful silk ties—dainty embroidered effects—all shapes and color combinations-a style and a price that will exactly suit everyone. Come see.

Don't forget Machin's swell line of waists for Easter.
